STATEMENT

The above application was further filed as an International Application using a foreign associate in Australia (because the requirements for filing by the below could not be met because of the citizenship and residence of the inventors and the citizenship of the assignee) and applicant's attorney did not notify the US PTO of same within the forty-five day period required per 35 USC 122(b)(2)(B)(iii) and 37 CFR 1.213(c). At the time of the (US) filing of the above application, the first-named inventor, Ian E. Abrahams, stated that he did not wish to further file the application. However, when we contacted Mr. Abrahams with a reminder of the deadline (having first notified him at the six-month anniversary) for further filing, Mr. Abrahams stated near the end of the deadline (22 Jan. 2002) that he did wish to file an International Application and would send us a retainer for same. The below attorney, in haste to further file (which required finding a foreign associate and not simply ourselves preparing and filing an International application), simply did not recall at the time of the further filing that Mr. Abrahams had earlier indicated he would not further file and did not recall the non-publication request until Oct. 29, 2004, when the below was reviewing the file for responding to an Office action.
